

**Gain business contacts and make a difference!**

As a committee member, you can make decisions influencing the construction industry and help shape ABC policies. This is a great way to develop your leadership skills and gain access to knowledge about the industry. The committees work hard, but also have fun at their meetings and socials.

*“Joining a committee with ABC has been a priceless experience for me! Becoming more involved has enhanced the benefits of our membership tremendously. There is nothing more enjoyable than having the opportunity to spend time with the forward-thinking experts of our industry as well as to have the ability to offer my opinion, too...It’s the feeling of making a difference!”* **Ema Rankin**, Milender White Construction Co.

*“Being involved with ABC has allowed our company to utilize the many training and development programs offered, it has also allowed us to voice our opinion on issues which involve the construction industry from the local to the national levels.”* **Paul O’Donnell**, 2010 ABCRMC Chair, Hensel Phelps Construction Co.

**ABC Rocky Mountain Chapter Committee Involvement Form.**

The committees are where the strongest networking relationships are built, and where significant development occurs.
