

ABC SAFETY

OSHA 10-Hour Class In Spanish

The OSHA 10-hour Construction Outreach Program places emphasis on the most hazardous areas in construction. The course uses OSHA standards as a guide. It is extremely valuable to supervisors, managers, and foremen. Attendees who successfully complete this class will receive a wallet card from OSHA.

Important topics covered:

- Introduction to OSHA;
- Materials Handling, Storage, Use and Disposal;
- Tools - Hand and Power;
- Scaffolds;
- Cranes, Derricks, Hoists, Elevators, & Conveyors;
- Excavations;
- Stairways and Ladders;
- Fall Protection;
- Electrical;
- Struck by, and Caught in/between; and
- Personal Protective and Lifesaving Equipment

Who Should Attend: Every member of your construction workforce needs this class to provide the base-line safety knowledge necessary to keep themselves and their coworkers safe. Maintain a low EMR by sending your workforce to this important class.
