

**Gain business contacts and make a difference!**

As a committee member, you can make decisions influencing the construction industry and help shape ABC policies. This is a great way to develop your leadership skills and gain access to knowledge about the industry. The committees work hard, but also have fun at their meetings and socials.

*“Getting involved with the Rocky Mountain ABC has been incredibly worthwhile not only for me, but for all of the audit, tax, and consulting professionals at EKS&H that serve the construction industry. Participation has provided us access to some of the best information, education, and networking opportunities available anywhere. To say our association with ABC has been valuable, would be an understatement.*

*Rocky Mountain ABC provides incredibly valuable information and opportunities to engage with leading contractors and construction experts. My personal involvement, and that of EKS&H, has proven to be a strategic component of our commitment to serving the industry in this region. I would recommend anyone interested in learning about leading construction strategies get involved, or increase participation.” Liz Castro, EKS&H*
